

TIPE RELEASES NEW LOGO

Following several requests from TIPE subscribers to consider a new logo TIPE has released details today

TIPE spokesman, Peter Grand, said, " following a number of requests from TIPE subscribers to look at our logos we engaged a graphic designer to come up with some ideas. After some research which split our subscribers we are offering two versions for them to choose from the first of which is released today. We made this decision as a compromise as we do listen to our subscribers and felt that it would not affect the TIPE brand. The second logo is almost finished and should be released in the next week. Various items of merchandise will also be made available. "
