

NEWS RELEASE

Entertainment Sheet 7 (ETIS 7) or BSEN14960:2006

The British Inflatable Hirers Alliance (BIHA) recently posted an article on their web site entitled "HSE Entertainment Sheet 7 (Inflatable Bouncy Devices)" The article stated "Please note that the following document has been superseded by BS EN 14960:2006 but it is still useful for reference purposes." This was a completely false statement as ETIS 7 is still current.

The document included in the article was not a version of ETIS 7 and Inflated News has been unable to ascertain its origin. You can view a copy of ETIS 7 at www.inflatednews.co.uk/ETIS7.pdf.

On discovering the release of this inaccurate information Inflated News contacted Mark Jerram, owner of the British Inflatable Hirers Alliance, and the article was subsequently removed.

If you have read this article then you need to ignore the information contained therein
